About Cedar Rose

Cedar Rose Int. Services Ltd was originally established in the UK in 1997. In 2004, the business moved to Lebanon and in 2007 opened the current Headquarters in Limassol, Cyprus. The founders of the company are Antoun Massaad, CICP, MIEx, MCICM, Chief Executive Officer and Christina Massaad, Managing Director, Lebanese- British nationals, both based in Limassol, Cyprus. Driven by a desire to be the best at what they do, they strive for excellence and lead the way in the business intelligence industry.

The Middle East and North Africa (MENA) region has traditionally been behind Europe and the USA in terms of data availability and reliability. It has been Cedar Rose's mission for over 23 years to close the gap and bring MENA in line with the rest of the developed world. We have now not only reached, but exceeded that goal.

Cedar Rose combines efficiency, compliance, information security, data protection and customer service skills with the latest technology and the largest business database for MENA company information. Coupled with this, and the provision of credit reporting services for over 230 countries globally, Cedar Rose consistently proves to be at the forefront of business intelligence.

Ethics & Compliance

Cedar Rose adopted the British standards in all aspects of operation from the start and today utilises the highest International standards and we are currently working towards ISO 27001 certification. We have strict policies and procedures in place to which our employees and suppliers are expected to adhere, including but not limited to:

- Corporate Governance
- Data Retention
- Data Breach
- Anti-Bribery & Corruption
- Network Access & Security
- Incident Response Management

Innovation s

Automated CR Score

Cedar Rose use an Artificial Intelligence scoring system that uses a series of quantitative and qualitative data to meticulously and accurately conclude a risk calculation of a company. When you purchase a Cedar Rose credit report, the CR Score will be present and give a clear indication of the risk level. This tool is especially helpful when companies have little or no financial data available, which is not an uncommon feature throughout the Middle East.

Trade Rate

Another recent innovative tool that Cedar Rose offers is the Trade Rate Payment Feedback initiative. Simply, in reaction to a rise in late payments that weighs heavily on businesses, especially SMEs, Cedar Rose wants to aid to stamp out late payments by having companies rate their customers' payment performance. If companies are known to pay late and have received multiple low ratings, then suppliers know who to avoid or to be cautious with.

Director & Shareholder Search

In 2019 we released a brand new search tool where customers can directly search for over 5 million Directors and Shareholders from the MENA region. We offer a continually growing amount of data on individuals and with this search initiative, our customers can directly and specifically search for an individual.

Salesforce Integration

Cedar Rose has teamed up with Salesforce to allow customers to easily integrate our data into their CRMs. Clients can use our data and fully customise it to be mapped how seen fit, Salesforce provides a platform for Cedar Rose to host millions of data at easier access, formatting and user accessibility for clients that also use Salesforce.

Our Partners

Corporate Partners
